Reasons for Allowance

This is written in reference to application number 10/792,306 filed on March 4, 2004 and published as US 2004/0180288 A1 on September 16, 2004.

Priority

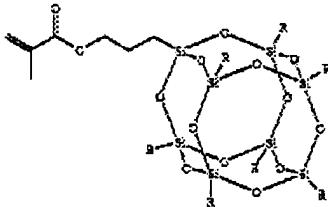

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The Information Disclosure Statement filed on March 4, 2004 has been entered and fully considered.

Allowable Subject Matter

3. Claims 1-16 are allowed.
4. The following is an examiner's statement of reasons for allowance: review of the prior art failed to teach and/or suggest a positive resist composition comprising (A) a resin having a repeating unit selected from the group consisting of (1) a vinyl ether containing a group represented by formula (A), (2) a vinyl ester containing a group represented by formula (A); and (3) a β -alkylacrylic acid repeating unit containing a group represented by formula (A); and (B) an acid generator.
5. Compositions comprising α -alkylacrylic acid repeating units containing a group represented by

formula (A) are known such as

See WO 02/073308 A1, JP 2002-256033

(machine translation), US 6,632,582 B1 and US 6,565,763 B1. However all the said references fail to teach and/or suggest a β -alkyl substitution as required by the instant claims. One of ordinary skill in the

Art Unit: 1752

art would not have been motivated nor would it have been obvious to replace the taught hydrogen atoms in the beta position for an alkyl groups.

6. Further, Malik et al. (US 6,830,870 B2) teaches a repeating unit of formula (I) which can be prepared by reacting a polymer containing a hydroxystyrene unit with a t-butyl vinyl ether and an alcohol of formula VII (c. 4, l. 31-c. 5, l. 14). Formula VII meets the limitations of claimed formula (A). However, formula (I) fails to meet the limitations of (1) a vinyl ether, (2) a vinyl ester or (3) a β -alkylacrylic acid as set forth in the instant claims. One of ordinary skill in the art would not have been motivated nor would it have been obvious to modify the taught backbone of Malik to meet the limitations of the instant claims.

7. The claimed invention is therefore deemed allowable over the cited prior art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
